EDUCATION

Indian Institute of Technology   Dharwad, Karnataka
B-Tech Under Graduate student   *December 2021 – April 2025*

Matoshri Junior College   Nashik, Maharashtra
11th-12th Science   *June 2018 – June 2021*

EXPERIENCE

Intern at Pathbeat   Bengaluru, Karnataka
React Native Developer   *June 2024 - Current*

- **Product Development and Engineering**: Engineered the app from the ground up using Redux, React Query, and React Hooks. Improved performance with lazy loading, memoization, and code splitting. Worked closely with designers and backend developers to ship the product.
- **API Development and Testing**: Integrated and consumed REST APIs, including Google Auth. Designed and tested corner and edge cases to ensure smooth operation in all scenarios.
- **Advanced Feature Integration**: Integrated third-party libraries and native modules. Developed custom animations, transitions, deep linking, Razorpay for payments and caching to enhance user experience.

Intern at Trainity   Bengaluru, Karnataka
Full Stack Web Developer   *Feb 2024 - April 2024*

- **Backend Development**: Developed and maintained REST APIs using Express.js and MongoDB. Implemented authentication and authorization with JWT and OAuth. Optimized database queries and backend performance, and ensured scalability and maintainability of codebase.
- **Frontend Development**: Converted Figma designs into responsive React components using Material-UI and integrated backend APIs for seamless interaction.

Intern at Acumensa Technologies   Bengaluru, Karnataka
Frontend Developer   *April 2023 - August 2023*

- **Frontend Development**: Developed complex React components for a B2C healthcare web solution, optimizing UI/UX for end users.
- **API Integration**: Integrated APIs with efficient error handling and data management.
- **Collaboration**: Worked with Delivery Lead, Backend, and QA teams, applying Agile methodologies for timely feature delivery.

PROJECTS

Yumtruk App and Admin Panel
Freelancing Project   *May 2023 - Aug 2023*

- **Full Product Development**: Developed the Yumtruk mobile app using React Native (expo), along with an admin panel powered by Express.js, Node.js, and MongoDB.
- **Technology Integration**: Integrated Socket.io for real-time notifications, Stripe/PayPal APIs for payments, and Expo Push Notifications for user engagement.

Skill Shodh
CTO @ skillshodh.in   *Current*

- **Comprehensive Talent Platform**: Created a dynamic web app connecting users by skills. Integrated profiles, chat, real-time notifications, team collaboration, job postings, and applications.

PROGRAMMING SKILLS

- **Languages**: Java, Python, JavaScript, C++, C

- **Technologies**: React, React Native, Node.js, Express.js, MongoDB, Django, Git & GitHub, FastAPI, Prisma, Socket.io, and more

- **DSA**: Proficient in designing and implementing complex algorithms and data structures.
